TO WHOM IT MAY CONCERNE

Bra, 30.01.07
FA/av

We hereby declare that our BUILDING GRADE material, after exterior application, with assembly following the technical advice given, will not undergo appreciable alterations in its intrinsic properties cohesion of the mass, structural flatness, deterioration of the decorative surface for over ten years. Only a light patina will form; the colour will lighten gradually and almost evenly.

The resistance data in time corresponds to exposure at a Central European latitude.

Arpa Industriale S.p.A does not directly supervise the installation of "BG" and does not, therefore, accept any liability and considers itself responsible exclusively for the "BG" used excluding indemnities for the other material used, labour, damages to the statics fo the building, etc..

In faith
